

PEARL

COLLECTION

Presentation for your jewellery collection is of the utmost importance, to help you achieve this we have put together various display options, The Pearl Collection being one. This jewellery display system gives you flexibility when coming to the pieces you wish to display, the base module works well when set up in the beautiful display cabinet shown here. This cabinet is clad in stone and gives off an aura of quality which can only help with the jewellery presentation and ultimately increase your sales. Please refer to the information sheets enclosed.

For full details and specification of the cabinet unit illustrated here. Please refer to the enclosed specification sheet titled Imperial collection.

STYLE & ELEGANCE

PEARL COLLECTION

The base raiser and background can be made up to the dimensions you require should you require changes from the display unit detailed on the enclosed information sheet. Stitching has been added to the base and background edges to add to the appearance of the unit.

STYLE & ELEGANCE
