

PRAGUE

COLLECTION

This collection is modern and stylish in look and is in line with the new beginnings of an old stylish city the collection is named after. Many colour options are available in the covering material we advise to be used for the exterior of the presentation case, with a variety of fabrics that can be used in the interior lining of the presentation case that will show the jewellery off at it's best.

Foil blocking or embossing of your logo or brand can be applied to the inner top cushion pad or the top outside lid. Please refer to the print colour reference sheet for print colour options.
